

ANSI - safety valve
Semi Nozzle (ANSI 150 - 300)

ARI-SAFE-SN ANSI (Semi-Nozzle)
ANSI-Safety Relief Valve

• Type-test approved acc. to
ASME Code Section VIII-Division 1.

• UV-stamp NB-stamp

• Further approvals: see inside

Fig. 901

902

911

912

Page 2

Fig. 900

Features:

- Direct loaded with spring
- Wear resistant seat/disc
- Precision disc alignment and guide
- Possible with soft seal disc
- Possible with EPDM bellows
- Possible with stainless steel bellows

55.901 / 911	ANSI300/150	SA351CF8M	1" x 2" - 6" x 10"	-75°F to 750°F	ASME B16.5

Marking

UV-stamp **UV**

NB-stamp

National Board Cert.-No.

Steam / Gas: 08008, 08031

Liquid: 08019, 08020

Construction / Application

Safety valve, spring loaded, direct loaded; gases, vapours and liquids

Requirement

ASME Code Section VIII-Division 1.

Sizing

Calculation acc. to API 520 (ASME VIII)

Details required

Medium: Gas Mass flow (lb/hr), molar mass (kg/kmol), temperature (°F), set pressure (psig), back gauge pressure (psig)

Medium: Liquid Volume flow (gal/min), density, viscosity, temperature (°F), set pressure (psig), back gauge pressure (psig)

Order data:

ARI-SAFE-SN ANSI - safety valve, Figure ..., Nominal diameter .../..., ANSI ..., Material ..., Set pressure ... psig

	standard: without metal bellows	1" x 2" - 6" x 10" optional: with metal bellows (refer to page 8)
Superimposed back pressure	no backpressure allowed	on request
Built up back pressure	max. 10% from set pressure (gauge) (higher on request)	on request

Information / restriction of technical rules need to be observed!

Valves set under 15 psi are not ASME-Code stamped.

A production permission acc. to TRB 801 No. 45 is available.

The engineer, designing a system or a plant, is responsible for the selection of the correct valve.

Resistance and fitness must be verified (or contact the manufacturer for information).

myValve® - Your Valve Sizing-Program.

myValve® is a powerful software tool that not only helps you size your system components; it also gives you instant access to all other data about the selected product, such as order information, spare parts drawings, operating instructions, data sheets, etc., whenever you need it.

MyValve - Calculator

- Contents:**
- **Type-test approved acc. to ASME Code Section VIII-Division 1.**
 - **Module ARI-Safety valves SAFE-Semi Nozzle-Calculation**
 - Sizing (Calculation of valve-size with given capacity.)
 - Sizing acc. to ASME VIII, API520

- Media:**
- **Integrated media-databank (more than 160 media) with conditions:**
 - Vapours / gases
 - Steam (saturated and superheated)
 - Liquid

- Special features:**
- Project administration of the calculation and product data incl. spare part drawings concerning to project and tag number
 - Direct output or calculation and product data in PDF format
 - Product data could be taken for a direct order
 - SI- and ANSI-units with direct conversion to another databank
 - Settings with over pressure or absolute pressure
 - All ARI Pressure regulating valves are integrated in a databank
 - Direct access concerning to the product on data sheets, operating instructions, pressure-temperature-diagram and spare part drawings
 - Operation in company networks possible (no complex installations on individually PC's necessary)

- System Requirements:** Windows operating systems, Linux, etc.

Technology for the Future.
